October 15, 2015

Dear Representative Marchant:

The Taxpayers Protection Alliance (TPA), representing millions of taxpayers across the country, writes in support of your legislation, **H.R. 3442, the Debt Management and Fiscal Responsibility Act of 2015**. This bill would require the United States Treasury Department to “provide a report to Congress prior to any date on which the Secretary anticipates the public debt will reach the statutory limit.” Your bill ensures the proper oversight for Congress and requires Treasury to provide a full accounting of any proposals, projections, and other related activities by the Treasury Department in regards to dealing with the debt limit and how to prevent defaulting.

The debt continues to grow and Congress continues to fall short of real and substantive solutions to reducing spending and making inroads to cutting our $18 trillion debt. Your legislation would provide much-needed oversight of the process of raising the debt limit.

TPA urges all members of the House to support your bill, H.R. 3442, so that the United States can be fully aware of what the Treasury Department is doing to keep the full faith and credit of the nation intact.

Regards,

David Williams
President
